

## Race to 100

Materials: Print out different colored grids and cut out strips to match coin values.

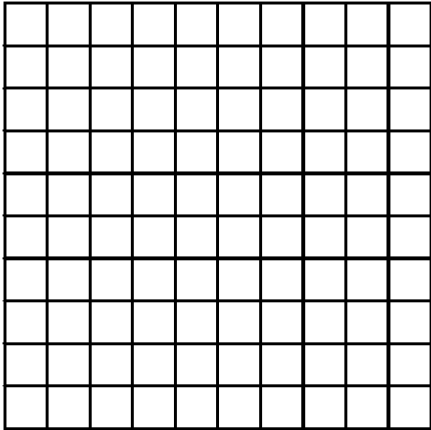

### Level 1 (pennies - blue, nickels - yellow, dimes - green)

- Both teams roll their dice and lay out green strips. Record your number of squares and color in your grid.
- Both teams roll their dice and lay out yellow strips. Record your number of squares and color in your grid.
- Both teams roll their dice and lay out blue squares. Record your number of squares and color in your grid.
- The first team to reach 100 wins!

### Level 2 (pennies - blue, nickels - yellow, dimes - green, quarters - orange)

Same as Level 1, but include quarters for 1<sup>st</sup> roll.

**Extension Idea:** Have students place coins on top of their pieces and write addition statements about how they got to 100.

<b>Roll #</b>	<b>Total Squares Covered</b>
