

## Two Steps Forward, One Step Back!

### The Rules to the Game:

1. Team 1 shuffles the cards and then deals each team a card to represent their tenths value followed by a card to represent their hundredths value.
2. Each team lays out their decimal pieces on their playing board to match their dealt value and then records this on the score sheet.
3. Team 2 shuffles the cards and then deals the cards for round 2.
4. Each team adds their decimal pieces to their playing board and then records both their added value and new total on the score sheet.
5. Teams take turns shuffling and dealing and follow the score sheet to do "add, add, subtract". As teams add to their board they may trade for larger, equivalent pieces.
6. The first team to create a total of at least 3 wins!

### Reflecting on the game:

1. Look back at the score sheet: When was your team leading by the most? Why?
2. Look back at the score sheet: When was your team losing by the most? Why?
3. When was drawing 0 a good turn and when was it a bad turn? Why?

### Team 1

Round #1		
Round #2	+	
	New total	
Round #3	+	
	New total	
Round #4	-	
	New total	
Round #5	+	
	New total	
Round #6	+	
	New total	
Round #7	-	
	New total	
Round #8	+	
	New total	
Round #9	+	
	New total	
Round #10	-	
	New total	

### Team 2

Round #1		
Round #2	+	
	New total	
Round #3	+	
	New total	
Round #4	-	
	New total	
Round #5	+	
	New total	
Round #6	+	
	New total	
Round #7	-	
	New total	
Round #8	+	
	New total	
Round #9	+	
	New total	
Round #10	-	
	New total
